

Solvents miscibility cross-reference chart

	Acetone	Acetonitrile	Carbon tetrachloride	Chloroform	Cyclohexane	1,2 Dichloroethane	Dichloromethane	Diethyl ether	Dimethylformamide	Dimethylsulfoxide	1,4 Dioxane	Ethanol	Ethyl acetate	Heptane	Hexane	Methanol	Methyl-tert-butyl ether	Pentane	Propan-1-ol	Propan-2-ol	Tetrahydrofuran	Toluene	2,2,4 Trimethylpentane	Water	
Acetone																									
Acetonitrile																									
Carbon tetrachloride																									
Chloroform																									
Cyclohexane																									
1,2 Dichloroethane																									
Dichloromethane																									
Diethyl ether																									
Dimethylformamide																									
Dimethylsulfoxide																									
1,4 Dioxane																									
Ethanol																									
Ethyl acetate																									
Heptane																									
Hexane																									
Methanol																									
Methyl-tert-butyl ether																									
Pentane																									
Propan-1-ol																									
Propan-2-ol																									
Tetrahydrofuran																									
Toluene																									
2,2,4 Trimethylpentane																									
Water																									

● Indicates that solvents are not miscible
